

A wide-angle photograph of a large industrial manufacturing facility. In the foreground, three men wearing white hard hats and high-visibility yellow safety vests are standing on a yellow metal platform, looking at a large sheet of paper. The platform is part of a large yellow industrial machine. The background shows a vast factory floor with various pieces of machinery, including a large yellow circular machine on the left. The ceiling is high with exposed steel beams and numerous industrial lights. The overall scene depicts a busy industrial environment.

FUNDING & SUPPORT

Grants and assistance programs

Find grants, funding and support programs from across government to help your business grow and succeed! When searching for funding, keep in mind that you'll generally need to meet certain criteria to be eligible, and that aside from funding assistance, many programs can help your business by building your skills and knowledge.

Search now

Find a grant or support program to help your business.

My business is located in postcode 3550

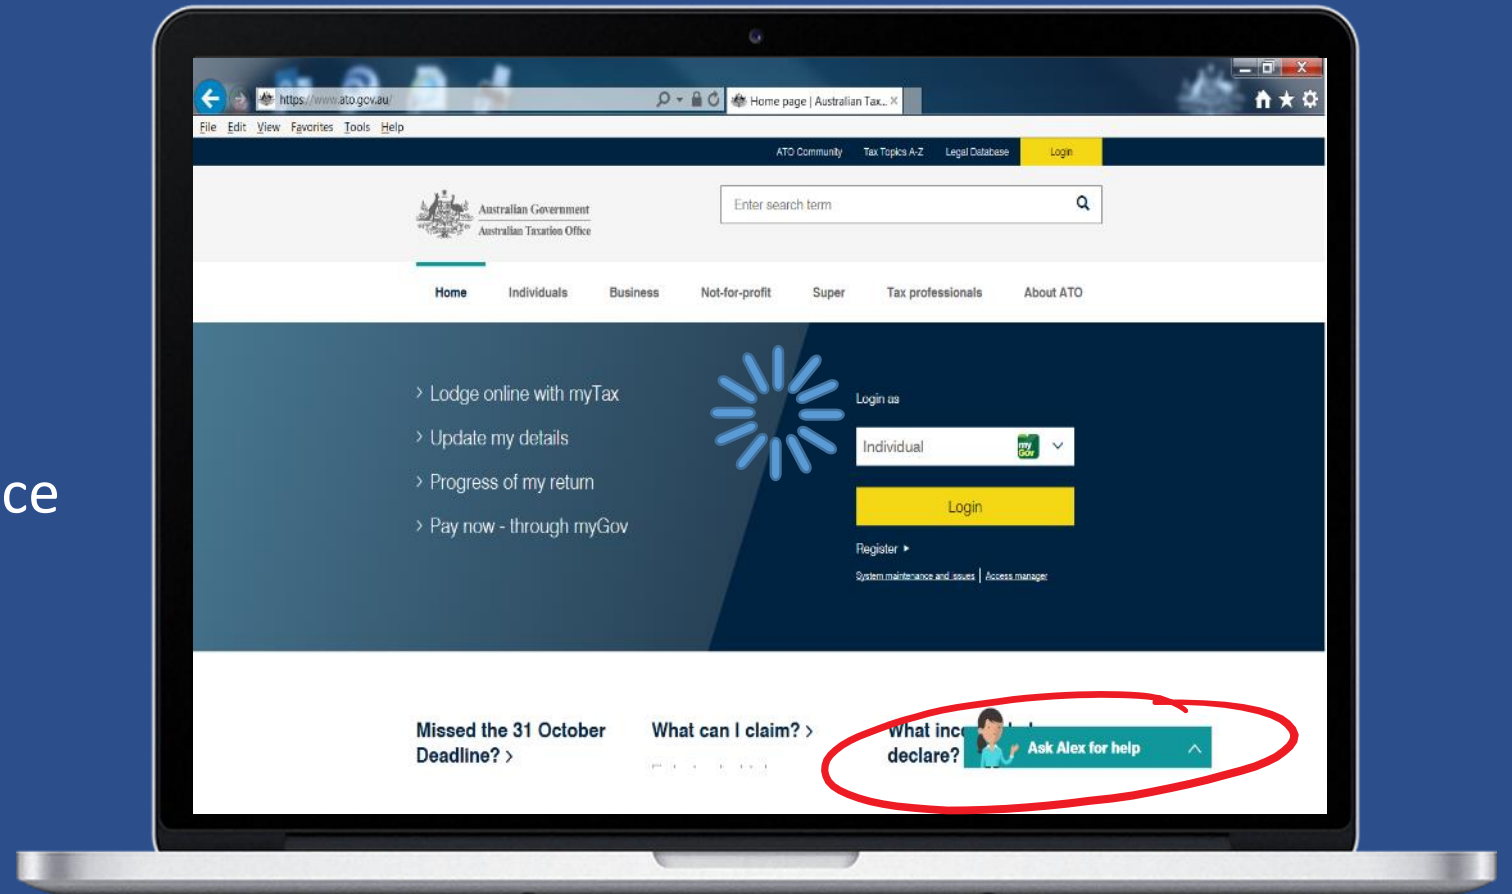

Postcode must be 4 digits, eg 2000.

Accelerating Commercialisation

 **Commercialisation Case Study**
Stormseal Industries Pty Ltd

Stormseal developed a patented light weight plastic film that can be used to cover a damaged roof or wall with heat application.

It can be used as a superior alternative to tarpaulins in the protection of both homes and other premises in times of catastrophic weather events, during construction or whilst making an insurance claim.

Grant:

- Stormseal received a grant of \$450,000 in April 2016 to commercialise Emergency Storm Damage Protection for Homes and Businesses.
